I'm self-taught. I began to gain knowledge in January 2022 from courses, books and during independent work with documentation. I'm currently focusing on developing my programming skills in JavaScript and framework React. I'm hardworking, a fast learner, do my work carefully and love to constantly improve my skills. I would like to work in a position where I can be part of a larger team and learn from others with more experience.

Tech skills

JavaScript, React, Python, Flask, Django, Html5, CSS3, Bootstrap Postresql, MySql, SQLite, Git/Github, Bash

Software

- Good communication and teamwork
- Good time management
- Ability to solve problems
- Quick learner and willingness to develop skills
